

If you have IR receiver's mounted on your TV bezel, then you need Stealth Remote Prisms instead.

A fully hidden IR Receiver specifically designed for hospitality.

If you have IR Receiver's mounted on your TV bezel, then you need Stealth Remote Prisms instead.

DO YOUR GUESTS THINK THERE'S CAMERAS IN YOUR ROOMS?

If so, You're not alone.

REST ASSURED WITH REMOTE PRISM™

The Stealth Remote Prism™ is a fully HIDDEN IR Receiver, that is guaranteed to solve the camera problem. Now available for DIRECTV Residential Experience (DRE), and all cable systems.

- Stealth is a low cost, direct replacement for the scary IR "Camera" installed on the front of your TV.
- Stealth installs in less than 1 minute and is guaranteed to be fully hidden and never fall off.
- Hundreds of thousands of Remote Prism's already installed in hotel rooms across the country.

Key Features

- Does not look like a camera! Fully hidden.
- Will eliminate guest complaints and unease.
- Low cost, quick and easy to install.
- High performance & high reliability IR Receiver, functions better than all of the competition.
- Provides corner to corner coverage.
- Almost permanent adhesive, will not fall off or get knocked off by house cleaning
- Eliminates unnecessary tech support calls
- Detachable 1M cable to fit most Set Back Box installations, other lengths available.
- This Patented Technology is already installed in hundreds of thousands of hotel rooms across the US.

Now available for all cable systems, DIRECTV Residential Experience (DRE), and all VOD systems.
