

Regardless of your location, keep guests cool and comfortable in hot, humid or dry conditions with the latest technology in fans, misters and umbrellas to enhance the guest experience that guests will appreciate and remember for years to come.

OUTDOOR ESSENTIALS

## Outdoor Fans, Misters & Umbrellas

### Cape Soleil 9' Market Umbrella and Base

Cape Soleil umbrellas add the finishing touch for outdoor seating areas and shield guests from the bright light and heat of the sun. Umbrella material is made of 100% acrylic fabric using industry-leading Sunbrella fabrics with attention to design detail and engineered with robust performance characteristics that provide resistance to fading and degradation from sunlight and chemical exposure. Fabrics are flexible yet durable and provide industry-leading environmental characteristics that make them easy to care for and long-lasting in nearly any environment. Umbrella frames are made of contract quality aluminum in a variety of powder coated finish options that stand up to contract use and provide the ultimate guest comfort. See page 23 for available Sunbrella fabric and finish options.

### Lasko 7050 Misto Outdoor Misting Fan

Lasko's 7050 Misto Outdoor Misting Fan is ideal for adding comfort to picnics, decks, patios, sports, gardening and even DIY projects. Misto attaches to your garden hose to create a fine-mist breeze that can reduce outdoor temperatures by as much as 25 degrees putting an end to sweating through summer activities. Misto is safe, durable and built to last. Setup is very easy; hook a hose up to the Misto, plug it in and turn it on. To operate, you can pick from three different levels of mist and choose if you want the fan to oscillate. Within seconds of flicking the switch you have a cool mist coming out. The Misto is weather, UV and rust resistant so once you set it up, you can pretty much leave it out. Plus, the misting kit detaches without tools for easy cleaning. Misto is NOT a toy...use caution and always supervise children while using Misto.
