# Key features

### An instantly familiar UI for faster navigation

Upon turning on their room TV, guests are treated to a recognizable UI filled with the most popular entertainment applications such as Netflix and YouTube. Guests can sign-in to dive back into the latest show they're binging or find new suggestions through their apps.

**4K UHD**

### Feel the reality of 4K UHD Resolution and lifelike color

Offer guests the vivid picture quality of home entertainment systems. Upscaling technology displays content in UHD resolution (3,840 x 2,160). Dynamic Crystal Color elevates your hotel's entertainment experiences. And with a billion shades of color, guests will enjoy every subtlety of every image.

### Create an unforgettable welcome

The Home app provides a first-class welcome experience for guests. This intuitive, customizable application can incorporate customized welcome messages, as well as hotel logos, branding and other useful information.

### See it all on one screen

Enable content from guests' mobile devices and your hotel TVs on the same screen at the same time. Whether it's live sports stats or video guides for games, guests can connect their phones with a tap, and see it all.

### Surround your guests with theater sound

Curate a fully immersive content experience with Adaptive Sound. Movies and shows sound dynamic, and the external Speaker Out port can connect sound to other areas of the guest room, such as the bathroom.

**TV Plus**

### Free TV, no strings attached with Samsung TV

Enjoy free live streaming TV content on Samsung TV Plus. Choose from over 180 channels offering trending content.

### Uncover insights with an integrated cloud platform

Empower hotel managers to enhance the guest experience with a powerful set of tools. LYNK Cloud provides remote display management and can even analyze guests' content use to help hotel managers deliver optimized promotions. (More detail on the following pages.)

### Tizen Enterprise Platform [TEP]

TEP is a new IP-based open platform designed to seamlessly manage all the Tizen based Samsung devices. System Integrators can easily develop smarter solutions allowing Hotels can deliver customized content and interactive services without the need for Set-Top Boxes.

### Pro:Idiom HD content decryption

Pro:Idiom MPEG4 technology makes the HBU800 Series TVs compatible with most major VOD/PPV systems.

### Ultra-slim minimalist design

The ultra-slim design and clean cable solution blends the TV into the room, for minimalist and flexible layouts.

**SAMSUNG**

# Samsung LYNK Cloud gives you seamless device management, content management and business intelligence.

From single boutique hotels to a portfolio of properties, Samsung LYNK Cloud offers a scalable, cloud-based solution for monitoring, managing and maintaining your entire fleet of guestroom TVs.

| LYNK Cloud | Standard | Premium | Premium Plus |
|---|---|---|---|
| Device Management | X | X | X |
| OTT Apps | X | X | X |
| IPG | X | X | X |
| Content Management | | X | X |
| Business Intelligence | | | X |
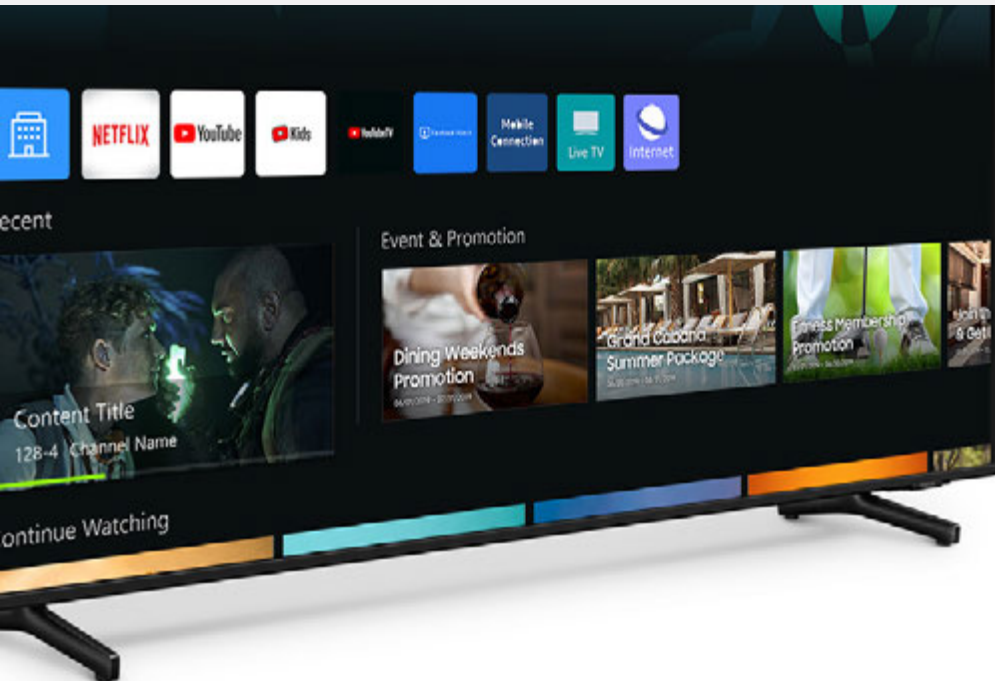

The HBU800 Series is natively compatible with LYNK Cloud, meaning it doesn't require a set-top box to power the system. It's simply plug and play.

3

## SAMSUNG

## Device management

Hotel managers can monitor all devices at all locations, and check errors in real time to quickly resolve any issues and ensure guests enjoy a seamless experience. Samsung LYNK Cloud also allows full access to controls, to allow hotel managers to remotely set volume, adjust configuration settings, and map access to specific channels and broadcasters.
### TV configuration
Easily track firmware versions of every connected device and remotely push TV configuration settings when needed.
### Virtual control
With the virtual remote control, you can power on/off, reboot, mute, change channel or source or change the volume remotely either immediately or at a scheduled time.

### Interactive Program Guide
Configure, maintain or change the interactive program guide in real-time from any location with the web-based portal.

### Device info
You can automatically capture info on each connected device, including TV model, serial number, firmware version, IP address, MAC address and location on property.

### Device grouping
Easily push updated messaging to groups of devices. For example, a promotion geared to your most exclusive rooms. Or push messages to select properties.

## OTT apps

With LYNK Cloud and Property Management System (PMS) integration, guests can access their own content accounts, including YouTube, YouTube TV, Facebook Watch and more.

When guests check in, they simply launch the application through the TV menu, log in, and begin streaming their favorite content. They stay logged in for the duration of their visit, and when guests check out, the Samsung TV automatically deletes their login information.

Apps mentioned here are just a sampling, and are not a complete list. Available apps subject to change.

## Interactive Program Guide

LYNK Cloud enables hotels to offer a custom IPG. It's easy to introduce guests to your exclusive content while also offering them a simple way to navigate to your complete content offering. And you can update it any time through the LYNK Cloud portal.
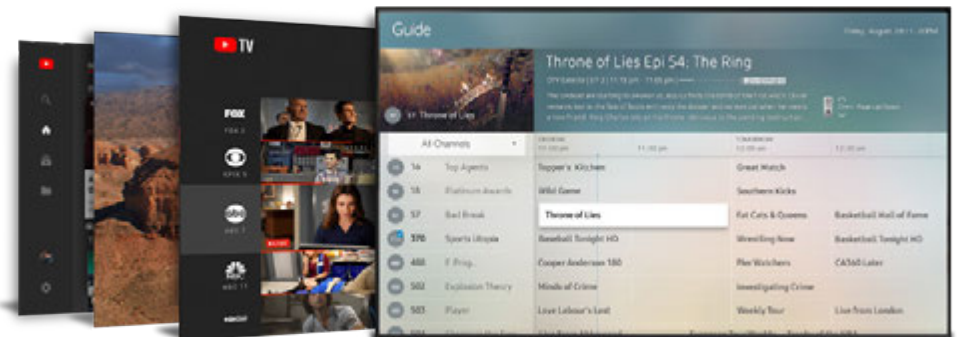

## Content management

LYNK Cloud features a powerful yet easy-to-use content management platform. It supports web-based content creation, powerful multimedia hosting of large video and image files, and efficient content deployment across locations. Additionally, in-room TVs can be used to support staff through interactive menu ordering, booking onsite services such as spas and conference rooms, and more.
### Powerful multimedia hosting
Upload videos, images and GIFs with minimal restrictions on file sizes.
### Web-standard content creation tools
Get simplified content framework and templates that support HTML5/Javascript.

### Interactive service support
With an Open API platform, you have virtually endless options in incorporating interactive modules for ordering, booking and more.

■ **LYNK Cloud Premium Plus**

## Business intelligence

By analyzing guest behaviors such as what content they watch on TV, which applications they use and which hotel information they're interested in during their stay, Samsung LYNK Cloud can help managers uncover valuable business insights. Based on these insights, hotels can provide relevant, personalized content to guests, to increase engagement and ultimately revenue.
### Service usage analysis
Samsung LYNK Cloud also enables users to analyze which services guests engage with most. It's possible to look at how many times a guest views promotional content, which hotel services they use – from in-room dining to the spa – and what purchasing decisions they ultimately make.
### TV and OTT content usage analysis
Samsung LYNK Cloud allows hotel managers to analyze TV and OTT content usage of guests, including channel/OTT, duration and applications, in order to better cater to guest preferences and optimize entertainment content expenses.
### Promotion entry analysis
Samsung LYNK Cloud allows users to analyze the point at which each guest entered to access a specific promotion, whether a notification page, preview page or the hotel application page.
### Promotion flow analysis
Samsung LYNK Cloud lets hotel managers analyze the user flow of any promotion. They can gather insights regarding the route through which a guest enters the final purchase page. If an abnormal number of guests exit through any single point, hotel managers can know to change the content or process.

## DRM

## Digital Rights Management (DRM)

### Samsung LYNK DRM HD Content Decryption (RF)
Samsung's software-based DRM technology is integrated into the entire Samsung Hotel TV line. Samsung LYNK offers a robust solution to unlock premium HDTV content from content providers such as cable, satellite and VOD providers, with maximum efficiency and security.

### Pro:Idiom DRM HD Content Decryption
The HBU800 Series is equipped with Pro:Idiom MPEG4 technology, making the TVs compatible with most major VOD/PPV systems. You can offer your guests premium HDTV content from cable, satellite or video-on-demand services with no optional cards or external box needed.

**SAMSUNG LYNK**

**Pro:Idiom™**

## Glossary

## Connections

### Anynet + (HDMI – CEC)
This Samsung protocol allows the user to control other HDMI devices connected to the TV display, such as DVD players, PC computers and Soundbars.

### ConnectShare (USB 2.0)
Connect a thumb drive or digital camera quickly and easily. User-friendly interface allows access to videos, a music playlist and pictures via the remote.

## Management and Guest Convenience

### Anti-Theft Battery Cover
Battery door is secured, ensuring batteries remain in the remote controller.

### Auto Channel Search
Auto detect channel while in Hotel mode.

### Clock On Timer and Alarm Key
Allows guests to program their TVs to turn on as a wake-up alarm.

### Closed Captioning
A text display of all audio content, including spoken dialog and non-speech information such as the identity of the speakers and symbols for sound effects and music.

### Hotel Channel List
Guest master channel listing of program content. This will display content in analog or HD.

### Hotel Logo and Custom Message with Samsung Home App
Easily edit the Home App to display your hotel logo and custom message.

### Hotel Mode Plug & Play
Interactive and Stand-Alone modes available.

### Lockout Controls
The hotelier can enable front panel and menu display lock-outs.

### Power On Status Setting
Settings include Power Always On, Last Option or Standby.

### On Screen Display Language
Choose English/French/Spanish.

### Security for HDMI and USB
You can enable or disable HDMI and USB access. If HDMI is disabled, HDMI source, HDMI-type external channels, and Anynet+ will not be accessible to guests. If USB is disabled, access to USB media is blocked.

### Sleep Timer
Allows guests to set TV turn-off time in 30-minute intervals up to 180 minutes.

### USB Cloning
A quick and easy way to copy the ideal settings off one television to others on the property. Saves time and helps provide a consistent viewing experience for all televisions.

## Picture and Audio

### 4K Resolution
HBU800 Series TVs feature 3840 x 2160 4K resolution, to deliver incredible picture quality and a premium experience.

### Samsung Soundbar Compatible
Samsung Hospitality Displays enable Soundbar compatibility by supporting HDMI-CEC. When you connect the Soundbar to the Samsung Hospitality Display with an HDMI cable, the TV audio settings and menu lock feature are automatically applied, so you don't have to set up the Soundbar separately. You can also prevent guests from changing the settings. With a single remote, guests can control both the TV and Soundbar simultaneously.

## Warranty

### Hospitality Warranty
2-year parts and 2-year labor warranty backed by the Samsung Hospitality Hotline at 1-866-894-0524. Optional professional installation, accessories and extended warranty are available.
